COVID-19 Compilation

January 29, 2021

Iowa

At 10 a.m. Thursday, the state was reporting 4,532 COVID-19-related deaths, an increase of 32 deaths since the state's tally at 10 a.m. Wednesday, according to the state's website. The state was reporting at 10 a.m. Thursday that there are 316,434 confirmed cases of coronavirus, an increase of 1,264 since 10 a.m. Wednesday. The total number of people tested is 1,459,921, according to the state. Of the people who have tested positive, 279,684 have recovered.

The daily numbers

The latest data as of 10 a.m. Thursday, compared to 10 a.m. Friday:

- **Confirmed cases:** 316,434, an increase of 1,264
- **Deaths:** 4,532, an increase of 32
- **Hospitalizations:** 391, down from 408
- **Patients in ICU:** 80, down from 81
- **Patients on ventilators:** 32, down from 37
- **Total tested:** 1,459,921
- **Total recovered:** 279,684

On Wednesday, 391 people were hospitalized in Iowa, down from 408 on Tuesday, according to the latest information available from the state. Hospitals admitted 52 patients, down from 76. Also, there were 80 patients in the ICU on Wednesday, down from 81 on Tuesday. There were 32 patients on ventilators, down from 37. Of Iowa's 99 counties, eight had a 14-day positivity rate above 15% on Thursday. Polk County, the state's most populous, was at 12%. Statewide, Iowa's 14-day positivity rate was 10.1% on Thursday. The state calculates the positivity rate by dividing the number of individuals who tested positive over the past 14 days by the total number of individuals who were tested in total over those 14 days.

Washington, D.C.

- HHS issued a fifth amendment to the Declaration under the Public Readiness and Emergency Preparedness Act (PREP Act) to add additional categories of qualified persons authorized to prescribe, dispense, and administer COVID-19 vaccines authorized by the FDA. The amendment:

- Authorizes any health care provider who is licensed or certified in a state to prescribe, dispense, and/or administer COVID-19 vaccines in any other state or U.S. territory.
- Authorizes any physician, registered nurse, or practical nurse whose license or certification expired within the past five years to prescribe, dispense and/or administer COVID-19 vaccines in any state or U.S. territory so long as the license or certification was active and in good standing prior to the date it went inactive.
- Requires any health care professional described above to complete CDC COVID-19 Vaccine Training and, for health care providers who are not currently practicing or whose license or certification is expired, requires an on-site observation period by a currently practicing health care professional.
- The GAO published a new [report](#) making 13 recommendations to federal agencies to improve the ongoing response and recovery efforts in the areas of public health and the economy. The recommendations involve vaccine distribution, supply chain, and program integrity, among others.
- The FDA has updated its [At-A-Glance Summary](#), which provides a quick look at facts, figures, and highlights on the FDA's response efforts.
- The NIH has launched a database to track the neurological symptoms associated with COVID-19. The database will collect information from clinicians about COVID-19-related neurological symptoms, complications, and outcomes as well as COVID-19 effects on pre-existing neurological conditions.
- The Pentagon has decided to offer coronavirus vaccines to detainees at Guantánamo Bay, Cuba, possibly starting next week.
- The Pentagon is considering sending active duty troops to large-scale, federally run coronavirus vaccine centers after FEMA requested assistance setting up their roughly 100 vaccine sites across the country.
- The CDC updated their [FAQs about v-safe](#), which you can enroll in on your smartphone once you get a COVID-19 vaccine.
- The CDC has published and updated a number of COVID-19 and vaccine materials and resources on its [dashboard](#), and you can keep track of vaccinations [here](#). Please continue to check these for information on things like recommended quarantine periods and return-to-work guidance. To highlight a few of the recent updates:
 - [COVID-19 Vaccine FAQ](#)
 - [Toolkit for Pregnant People and New Parents](#)
 - [Essential Workers & Employees: When & How to Get Vaccinated](#)
 - [Household Checklist](#)
- 320 tests and sample collection devices are authorized by the FDA under emergency use authorizations (EUAs). These include 238 molecular tests and sample collection devices, 69 antibody tests, and 13 antigen tests. There are 33 molecular authorizations that can be used with home-collected samples. There is one molecular prescription at-home test, one antigen prescription at-home test, and one over-the-counter (OTC) at-home antigen test.
- The DoD [published](#) its most recent COVID-19 Travel Restrictions Installation Status Update.
- No new members of Congress have tested positive for COVID-19 since last week.

Updates from the States

- Out of the cases under investigation detected by U.S. surveillance, there are **25,456,670 total cases** and **427,626 deaths**. *The CDC data closes out the day before reporting.*
- Reports of new cases continue to fall sharply across the country. The U.S. is averaging about 90,000 fewer cases each day than at its peak earlier this month.
- Over the past week, there has been an average of 163,182 cases per day, a decrease of 34 percent from the average two weeks earlier.
- Alabama, Montana, North Carolina, Oklahoma, and Washington all reached seven-day death records on Wednesday.
- Alaska Gov. Mike Dunleavy (R) proposed a [bill](#) to Alaska's legislature on Monday that would extend the state's COVID-19 public health disaster declaration through September 30, 2021.
- Arizona Gov. Doug Ducey (R) issued an [advisory](#) to accelerate the statewide distribution of the COVID-19 vaccine and move doses of vaccine to where they can be rapidly administered to Arizonans.
- Florida Gov. Ron DeSantis (R) said that the state is now withholding COVID-19 vaccines to ensure seniors and health care workers can get their second doses rather than administering as many first doses as possible.
- The Idaho House voted in favor of immediately lifting all COVID-related limits on gatherings statewide. The bill will go to the Idaho Senate next, before going to Idaho Gov. Brad Little (R).
- Massachusetts Gov. Charlie Baker (R) signed an [EO](#) that extended statewide reduction of capacity limits for gatherings, repealed mandatory night-time closing periods for certain businesses and activities, and rescinded time limitations on gatherings.
- Missouri Gov. Mike Parson (R) is considering diverting thousands of unused vaccine doses from Walgreens and CVS and sending them to National Guard mass vaccination sites. Gov. Parson also announced the launch of a new COVID-19 vaccination dashboard containing Missouri-specific data submitted by providers from across the state.
- North Dakota Gov. Doug Burgum (R) announced that he is lowering the state's COVID-19 risk level to "low," which allows North Dakota bars and restaurants to serve up to 80 percent of their normal capacity with proper social distancing guidelines beginning at 8 AM Friday, Jan. 29. Gov. Burgum said that face coverings should be strongly recommended or required.
- Ohio Gov. Mike DeWine (R) announced the criteria for lifting the 10 PM statewide curfew as COVID-19 numbers continue to decline in the state. There will be gradual changes until there are fewer than 2,500 new cases for a week straight, at which point the curfew will be lifted.
- Gov. DeWine said that employees in Ohio schools will begin receiving the COVID-19 vaccine this week with the goal of returning students to in-person learning by March 1.
- New York Gov. Andrew Cuomo (D) announced that coronavirus-related restrictions on nonessential businesses and indoor dining would be lifted in several areas across the state and that state officials are looking at whether New York City indoor dining could return at 25 percent capacity.
- The Wisconsin Senate voted to end Gov. Tony Evers' (D) statewide face mask mandate.
- California Gov. Gavin Newsom (D) [announced](#) a series of improvements to the state's vaccination plan. The state will launch a new system for Californians to learn when they are eligible for vaccination and how to

make an appointment, will accelerate the administration of vaccines on hand, and will improve vaccination data tracking.

- Delaware Gov. John Carney (D) [announced](#) an expansion of the state's vaccination efforts by partnering with private and community organizations to begin expanding access to the COVID-19 vaccine among low-income, underserved seniors. The Delaware Department of Education will also begin vaccination pre-registration for educators and school staff.
- Illinois is partnering with Hy-Vee pharmacies across central and northern Illinois to offer COVID-19 vaccines to eligible individuals.
- Kansas Gov. Laura Kelly (D) [announced](#) that county-specific allocation data is now available on Kansas's COVID-19 vaccine dashboard.
- Michigan Gov. Gretchen Whitmer (D) appointed new members to the bipartisan Protect Michigan Commission which helps raise awareness of the safety and effectiveness of an approved COVID-19 vaccine, educates Michigan residents, and helps protect the health and safety of Michigan residents.
- Minnesota Gov. Tim Walz (D) [announced](#) updates to the registration process for the COVID-19 vaccination pilot program. The updated process eliminates the first come, first served system. Gov. Walz also announced a mass vaccination pilot event for metro area educators, school staff and childcare providers.
- Nevada Gov. Steve Sisolak (D) wrote a [letter](#) to acting HHS Secretary Norris Cochran regarding the State's federal allocation of the COVID-19 vaccine because Nevada has received the second-lowest number of vaccine doses per capita among all U.S. states so far.
- Connecticut Gov. Ned Lamont, Gov. Polis, Gov. Carney, and Gov. Kelly each extended their state's state of emergency declarations.
- North Carolina Gov. Roy Cooper (D) [announced](#) that North Carolina's Modified Stay At Home Order, requiring people to be at home from 10 pm – 5 am, will be extended. Face covering requirements and restrictions on individuals gathering in both indoor and outdoor settings are still in place.
- Oregon Gov. Kate Brown (D) [announced](#) updates to county risk levels under the state's public health framework and announced modifications to the guidance for indoor activities in Extreme Risk counties.
- The New York State attorney general accused the Cuomo administration of undercounting coronavirus-related deaths at nursing homes by as much as 50 percent, according to a [report](#) released on Thursday.
- Useful state data:
 - Use Johns Hopkins University's [COVID-19 U.S. map](#) as a resource for media, policymakers, and communities to view a collection of critical public health data in one online destination and better understand and track the COVID-19 pandemic in populations both large and small across the country. [NPR's map](#) can also be used to monitor you state's heat wave.
 - NASHP has developed a [COVID-19 State Action Center](#) which serves as a state-level policy dashboard. [Governing](#) is also keeping a running tally of coronavirus news and impacts at the intersection of the health and economic crises in the states and localities.
 - This [site](#) from the Kaiser Family Foundation provides state-level information on cases/deaths, social distancing measures, health policy actions, and more.
 - This [series of maps](#) shows how states are responding to COVID-19.

Science, Lifestyle, and Economy

- More than 48.3 million doses of COVID-19 vaccines have been distributed across the U.S., and more than 21.7 million people have received their first dose, according to [CDC data](#).
- A COVID-19 vaccine from Novavax proved nearly 90 percent effective in preliminary results from a key clinical trial in the U.K., but in a separate trial appeared far less effective against the new variant from South Africa.
- Preliminary findings from an NIH [study](#) suggest pregnant women who experienced severe symptoms of COVID-19 had a higher risk of complications during and after pregnancy. Compared to COVID-19 patients without symptoms, the NIH study showed that those with severe symptoms were at higher risk for cesarean delivery, postpartum hemorrhage, hypertensive disorders of pregnancy and preterm birth. The researchers also found transmission of COVID-19, from mother to child was rare, with 1 percent of newborns testing positive for the virus before being discharged from the hospital.
- CDC's MMWR published a few new articles of interest:
 - [Impact of COVID-19 on Cervical Cancer Screening Rates Among Women Aged 21–65 Years in a Large Integrated Health Care System — Southern California, January 1–September 30, 2019, and January 1–September 30, 2020](#)
 - [SARS-CoV-2 Transmission Associated with High School Wrestling Tournaments — Florida, December 2020–January 2021](#)
 - [COVID-19 Cases and Transmission in 17 K–12 Schools — Wood County, Wisconsin, August 31–November 29, 2020](#)
 - [Allergic Reactions Including Anaphylaxis After Receipt of the First Dose of Moderna COVID-19 Vaccine — United States, December 21, 2020–January 10, 2021](#)
- New York has not mentioned prison inmates in its vaccine eligibility guidelines. At least 5,100 people living and working in New York's prisons have tested positive for COVID-19 and 12 have died in recent weeks, outpacing the early days of the pandemic.
- COVID-19 cost global tourism \$1.3 trillion in 2020 according to the U.N.
- The IMF has raised its [forecast](#) for global economic growth in 2021 and said the coronavirus-triggered downturn in 2020 would be nearly a full percentage point less severe than expected.
- Overlake Medical Center & Clinics in Bellevue, Washington, is receiving backlash after sending an email to about 110 donors who gave more than \$10,000 to the hospital system, telling them they could register for open appointments "by invite" only.
- The Arkansas Department of Health has confirmed that a central Arkansas house cat was found to be infected with COVID-19.
- German authorities have blocked the use of the AstraZeneca vaccine on people over age 65. A statement by the Standing Vaccine Commission at the Robert Koch Institute (RKI), Germany's main public health agency said there is "insufficient data currently available to ascertain how effective the vaccination is above 65 years."
- A second company has provided preliminary evidence that proactively infusing healthy people with monoclonal antibodies against SARS-CoV-2 prevents them from developing noticeable symptoms of COVID-19 if they are exposed to the coronavirus. In a [press release](#) earlier this week, Regeneron revealed

that when it gave a cocktail of two of those antibodies to 186 people living in a house with someone who had COVID-19, none developed symptomatic disease.

- Eli Lilly is testing its COVID-19 antibody therapy in combination with another treatment by Vir Biotechnology Inc and its partner GlaxoSmithKline, to combat new variants of the coronavirus.
- The French Cannes 2021 film festival will take place between July 6-17 instead of May 11-22 as initially planned.
- The International Swimming Federation, known as FINA, postponed its artistic-swimming qualification event for the Tokyo Olympics because of COVID-19. The competition was supposed to be held at the Tokyo Aquatics Center in March but has been rescheduled for May.
- The WHO keeps a running list of COVID-19 vaccine candidates, which you can view [here](#). STAT News also has a resource [tracking COVID-19 drugs and vaccines](#). The New York Times has a very helpful vaccine tracker as well, which you can view [here](#). This [AVAC pipeline tracker](#) is great, too.
- The Johns Hopkins Center for Health Security has an extensive [list](#) of commercial and lab-developed tests.
- Continue to look at the NIH Office of Portfolio Analysis's (OPA) expert-curated [portfolio of COVID-19 publications and preprints](#). The portfolio includes peer-reviewed articles from PubMed and preprints from medRxiv, bioRxiv, ChemRxiv, and arXiv. It is updated daily with the latest available data and enables users to explore and analyze the rapidly growing set of advances in COVID-19 research.

International Affairs

- [Here](#) is the most recent edition of the WHO's Weekly Epidemiological Update and [here](#) is the most recent edition of the WHO's Weekly Operational Update.
- Germany's health minister, Jens Spahn, said the country is facing a 10-week vaccine shortage.
- A businessman from Taiwan has been fined more than \$35,000 after he was caught on camera repeatedly breaking rules requiring him to quarantine at home. The man, who returned to Taiwan last week from mainland China, left his home seven times when he was supposed to be in isolation.
- Israel has secured COVID-19 vaccine doses from Pfizer by agreeing to share medical data on Israelis. The country has now vaccinated a quarter of its population – making it the most vaccinated country in the world. However, some privacy experts are concerned as the deal would allow Pfizer to access 30 years' worth of medical records from the entire population.
- In South Africa, a delivery of 1 million doses of the AstraZeneca vaccine is expected to arrive imminently at Johannesburg's international airport. Doctors and nurses are expected to start receiving vaccinations next week.
- The U.K. is starting a hotel quarantine system for arrivals from high-risk countries starting Wednesday. The measures will apply to people coming from 22 countries including amid concern over new variants of the virus. In addition, travelers from the U.A.E., Burundi, and Rwanda will be denied entry to the U.K.
- The Gambian health ministry said it will “name and shame” people refusing to self-isolate, after 40 refused to do so last week or escaped treatment clinics.
- Iceland has issued its first vaccine passports to ease international travel for people who have been fully vaccinated.

- The French Government has imposed a 6 PM curfew to contain the surge of new cases. .
- Germany is considering sending medical aid to Portuguese hospitals that are running out of oxygen supplies to support critically ill COVID-19 patients.
- Thailand is targeting the immunization of 19 million people against the coronavirus in a first phase of inoculations starting on Feb. 14, amid criticism the government has been slow in rolling out vaccines.
- Switzerland will require negative coronavirus tests from people entering the country from high-risk areas as of Feb. 8.
- Madrid health authorities have suspended COVID-19 vaccinations this week and next because they have started running out of doses.
- Bahrain will suspend dine-in services in restaurants and cafes and will move public and private schools to remote learning for three weeks to contain the spread of COVID-19.
- Beijing will require people arriving from low-risk areas in China between Jan. 28 and Mar. 15 to show negative COVID-19 test results in an effort to mitigate transmission ahead of peak travel season around the lunar new year and the annual parliament meeting on Mar. 5.
- A Chinese donation of 500,000 doses of its domestically manufactured Sinopharm vaccine will arrive in Pakistan on Saturday. The Pakistani government plans to begin rolling out its COVID-19 vaccination drive next week.
- Norway will close its borders to all but essential visitors starting at midnight local time on Friday.
- The Czech health ministry has recommended halting first doses of COVID-19 vaccines for the next two weeks to prioritize giving second doses.
- Vietnam has reported its first cases of community transmission in months, after two infections were detected in the northern provinces of Hai Duong and Quang Ninh, just weeks before the Lunar New Year holiday.
- Iran has approved Russia's Sputnik V vaccine and plans to both import it and produce it.
- Vietnam, which has been widely praised for its success in controlling COVID-19, is preparing for tens of thousands of new infections after local transmission was detected in northern provinces for the first time in almost two months.
- Chile has received a first shipment of almost two million doses of the Chinese Sinovac COVID-19 vaccine and plans to roll it out across the country beginning next week.
- The French public health agency for the Paris region has told regional hospitals they must suspend injections of the first dose of the COVID-19 vaccine from Feb. 2 because of limited supplies.
- Portugal's government has announced it will reintroduce controls along its 750-mile border with Spain as authorities respond to a surge in COVID-19 infections and deaths.
- **Global Cases:** 100,455,529 **Total Deaths:** 2,166,440
